For more than four decades, RKE Contractors has provided general contracting, sitework, and heavy civil construction services to the federal government. RKE has successfully completed numerous projects for federal agencies involving site development, road construction, drainage infrastructure, and large-scale earthwork. The RKE team understands federal contract requirements, including safety, quality control, and coordination on active government sites. With experienced personnel and the equipment needed, RKE is well prepared to successfully deliver federal projects.

CORE COMPETENCIES

- **General Contracting**

RKE's management team has experience delivering a wide range of construction projects, including heavy civil, site development, vertical construction, and commercial work. In addition to work that is self-performed, RKE delivers projects through structured subcontracting arrangements, including joint ventures, mentor-protégé agreements (MPA), teaming partners, and traditional subcontractors.

- **Design-Build**

RKE performs Design-Build contracts for federal clients. RKE supports the full Design-Build process, including in-house design capabilities and established teaming relationships with qualified engineering partners when additional design support is required. RKE has successfully delivered Design-Build border infrastructure projects for the U.S. Border Patrol as well as Design-Build work at National Cemetery facilities.

- **Sitework, Excavating, & Heavy Civil Construction**

RKE has extensive experience performing sitework and heavy civil construction for the federal government, including projects for USACE, Department of Veterans Affairs, Federal Highway Administration, and many other federal agencies. Work includes roads, bridges, drainage infrastructure, border infrastructure, mechanical dredging, relief wells, and large-scale site development. RKE owns and operates a large fleet of equipment, including excavators, dozers, scrapers, haul trucks, and draglines, allowing RKE to self-perform major earthwork and excavation scopes.

COMPANY SNAPSHOT

UEI Number: XMKUEVF3NMB5

CAGE Code: 0E9B3

POC: Ryan McLaughlin, VP of Operations

Phone: 573-624-5277
